

TECHNOLOGY AND INSTRUCTIONAL MATERIALS

The board supports the use of innovative methods and the use of technology in the delivery of the education program. The board encourages employees to investigate economic ways to utilize instructional television, audiovisual materials, computers, and other technological advances as a part of the curriculum.

It is the responsibility of the superintendent to develop a plan for the use of technology in the curriculum and to evaluate it annually. The superintendent will report the results of the evaluation and make a recommendation to the board annually regarding the use of technology in the curriculum.

MEDIA CENTERS

The school district will maintain a media center in each building for use by employees and by students during the school day.

Materials for the centers will be acquired according to board policy, "Instructional Materials Selection."

It is the responsibility of the principal of the building in which the media center is located to oversee the use of materials in the media center.

It is the responsibility of the superintendent to develop procedures for the selection and replacement of both library and instructional materials, for the acceptance of gifts, for the weeding of library and instructional materials, and for the handling of challenges to either library or classroom materials.

INTERNET - APPROPRIATE USE

Because technology is a vital part of the school district curriculum and the Internet will be made available to employees and students. Appropriate and equitable use of the Internet will allow employees and students to access resources unavailable through traditional means.

Students will be able to access the Internet through their teachers and individual accounts. Individual electronic mail addresses will not be issued to students. If a student already has an electronic mail address, the student, with the permission of the supervising teacher, be permitted to use the address to send and receive mail at school.

The Internet can provide a vast collection of educational resources for students and employees. It is a global network which makes it impossible to control all available information. Because information appears, disappears and changes constantly, it is not possible to predict or control what students may locate. The school district makes no guarantees as to the accuracy of information received on the Internet. Although students will be under teacher supervision while on the network, it is not possible to constantly monitor individual students and what they are accessing on the network. Some students might encounter information that may not be of educational value. Student Internet records and access records are confidential records treated like other student records.

Employees and students will be instructed on the appropriate use of the Internet. Parents will be required to sign a permission form to allow their students to access the Internet. Students will sign a form acknowledging they have read and understand the Internet Acceptable Use policy and regulations, that they will comply with the policy and regulations and understand the consequences for violation of the policy or regulations.

INTERNET ACCESS PERMISSION LETTER TO PARENTS

Your child has access to electronic communication known as the Internet. The Internet is a collection of more than 20,000 interconnected computer networks. The vast domain of information contained within Internet's libraries can provide unlimited opportunities to students.

Students will be able to access the Internet through their teachers and individual accounts. Individual electronic mail addresses will not be issued to students. If a student already has an electronic mail address, the student, with the permission of the supervising teacher, be permitted to use the address to send and receive mail at school.

Students will be expected to abide by the following network etiquette:

- The use of the network is a privilege and may be taken away for violation of board policy or regulations. As a user of the Internet, students may be allowed access to other networks. Each network may have its own set of policies and procedures. Students will abide by the policies and procedures of these other networks.
- Students will respect all copyright and license agreements.
- Students will cite all quotes, references, and sources.
- Students will only remain on the system long enough to get needed information.
- Students will apply the same privacy, ethical and educational considerations utilized in other forms of communication.
- Student access for electronic mail will be through their own account. Students should adhere to the following guidelines:
 - Others may be able to read or access the mail, so private messages should not be sent.
 - Delete unwanted messages immediately.
 - Use of objectionable language is prohibited.
 - Always sign messages.
 - Always acknowledge receipt of a document or file.
- Students accessing Internet services that have a cost involved will be responsible for payment of those costs.

INTERNET - APPROPRIATE USE REGULATION

I. Responsibility for Internet Appropriate Use.

- A. The authority for appropriate use of electronic Internet resources is delegated to the licensed employees. For the purpose of this policy, Internet is defined as:

A collection of more than 20,000 interconnected computer networks involving an estimated 1.5 million computers and 25 million users around the world. It is a collaboration of private, public, educational, governmental and industrial sponsored networks whose operators cooperate to maintain the network infrastructure.

- B. Instruction in the proper use of the Internet system will be available to employees who will then provide similar instruction to their students.
- C. Employees are expected to practice appropriate use of the Internet, and violations may result in discipline up to, and including, discharge.

II. Internet Access.

- A. Access to the Internet is available to teachers and students as a source of information and a vehicle of communication.

- B. Students will be able to access the Internet through their teachers and individual account. Electronic mail addresses will not be issued to students at this time.

1. Making Internet access available to students carries with it the potential that some students might encounter information that may not be appropriate for students. However, on a global network, it is impossible to control all materials. Because information on the Internet appears, disappears and changes, it is not possible to predict or control what students may locate.
2. It is a goal to allow teachers and students access to the rich opportunities on the Internet, while we protect the rights of students and parents who choose not to risk exposure to questionable material.
3. The smooth operation of the network relies upon the proper conduct of the end users who must adhere to strict guidelines which require efficient, ethical and legal utilization of network resources.
4. To reduce unnecessary system traffic, users may use real-time conference features such as talk/chat/Internet relay chat only as approved by the supervising teacher.
5. Transmission of material, information or software in violation of any board policy or regulation is prohibited.

INTERNET - APPROPRIATE USE REGULATION

6. System users will perform a virus check on downloaded files to avoid spreading computer viruses.
 7. The school district makes no guarantees as to the accuracy of information received on the Internet.
- III. Permission to Use Internet - Annually, parents will grant permission for their student to use the Internet using the prescribed form.
- IV. Student Use of Internet.
- A. Equal Opportunity - The Internet is available to all students within the school district through teacher access. The amount of time available for each student may be limited by the number of available terminals and the demands for each terminal.
 - B. On-line Etiquette.
 1. The use of the network is a privilege and may be taken away for violation of board policy or regulations. As a user of the Internet, students may be allowed access to other networks. Each network may have its own set of policies and procedures. It is the user's responsibility to abide by the policies and procedures of these other networks.
 2. Students should adhere to on-line protocol:
 - a. Respect all copyright and license agreements.
 - b. Cite all quotes, references and sources.
 - c. Remain on the system long enough to get needed information, then exit the system.
 - d. Apply the same privacy, ethical and educational considerations utilized in other forms of communication.
 3. Student access for electronic mail will be through their own account. Students should adhere to the following guidelines:
 - a. Others may be able to read or access the mail so private messages should not be sent.
 - b. Delete unwanted messages immediately.
 - c. Use of objectionable language is prohibited.
 - d. Always sign messages.
 - e. Always acknowledge receipt of a document or file.

INTERNET - APPROPRIATE USE REGULATION

- C. Restricted Material - Students will not intentionally access or download any text file or picture or engage in any conference that includes material which is obscene, libelous, indecent, vulgar, profane or lewd; advertises any product or service not permitted to minors by law; constitutes insulting or fighting words, the very expression of which injures or harasses others; or presents a clear and present likelihood that, either because of its content or the manner of distribution, it will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities, will cause the commission of unlawful acts or the violation of lawful school regulations.
 - D. Unauthorized Costs - If a student gains access to any service via the Internet which has a cost involved or if a student incurs other types of costs, the student accessing such a service will be responsible for those costs.
- V. Student Violations--Consequences and Notifications.

Students who access restricted items on the Internet are subject to the appropriate action described in board policy or regulations or the following consequences:

1. First Violation - A verbal and written "Warning" notice will be issued to the student. The student may lose Internet access for a period of up to 15 school days. A copy of the notice will be mailed to the student's parent by the building principal.
2. Second Violation - A verbal and written "Second Violation" notice will be issued to the student. A copy of the notice will be sent to the student's parent by the building principal. The student will forfeit all Internet privileges for a minimum period of fifteen and a maximum of 90 school days.
3. Third Violation - A verbal and written "Third Violation" notice will be issued to the student. A copy of the notice will be sent to the student's parent and by the building principal. The student will forfeit all Internet privileges for a minimum of 90 and a maximum of 180 school days.
