

Fourth Grade Math Vocabulary Words

Chapter 1

period	expanded form
word form	exact numbers
short word form	round
standard form	

Chapter 2

breaking apart	estimate
compensation	front-end estimation

Chapter 3

product	fact family
factor	Property of One
array	Zero Property
multiple	prime numbers
quotient	composite numbers
dividend	Associate Property
divisor	Commutative Property

Chapter 4

data	plot
mode	stem-and-leaf plot
median	probability
range	certain
bar graph	impossible
pictograph	more likely
line graph	less likely
ordered pair	outcome

Chapter 5

clustering	round
array	factors
estimate	product

Chapter 6

array	product
factors	

Chapter 7

elapsed time	kilogram(kg)
century	milliliter(mL)
decade	degrees Fahrenheit
gram(g)	

Chapter 8

remainder	compatible numbers
average	mean

Chapter 9

numerator	equivalent fractions
denominator	improper fraction
simplest form	common denominator
mixed numbers	

Chapter 10

decimal	equivalent decimal
decimal point	

Chapter 11

plane figure	polygon	vertex
quadrilateral	angle	right angle
obtuse angle	acute angle	perpendicular
radius	diameter	circumference
congruent	similar	line of symmetry
slide	flip	turn
perimeter	area	volume

Chapter 12

estimate	dividend
quotient	divisor
basic fact	compatible numbers
remainder
